Collection Hybrid – Product colour Stellar

## Unique woven flooring by 2TEC2

The Hybrid collection is rooted in the universe's most elemental forces. This biophilic flooring is a representation of the ongoing struggle between two of the most ancient elements of our world: light and dark. The pattern tightly weaves together these contrasting hues in a soft regular rhythm, creating a natural harmony and a captivating visual effect.

### Interwoven with nature

Interwoven with nature, not only in inspiration but also with the commitment to preserve the world beneath our feet: the Hybrid collection is bio-based.

Hybrid's woven top layer contains almost 40% biobased content, replacing fossil fuels with renewable, plant-based resources. A meaningful step forward towards more sustainable flooring.

2TEC2 woven flooring is 100% recyclable, contains recycled PET content in the acoustic SonoFelt® underlayer, and is designed for circularity.

### Acoustic comfort

All 2TEC2 flooring features a high-quality acoustic felt underlay, trademarked SonoFelt®, reducing impact sound by 19dB, thus providing peace of mind for all. This backing provides great acoustics as well as underfoot comfort. It is standard in all collections.

“The passion for fibres and structures, the love of colours and the determination to use eco-conscious materials are the foundations of our company’s philosophy.”

2TEC2 is a 100% Belgian company devoted to designing and producing recyclable high-tech woven flooring. Focused on weaving aesthetic tiles and rolls for the project market, the company aims for a superior performance in quality, functionality and durability.

Helios	15	Solaris	27
Lyra	16	Rosetta	28
Darkside	17	Halley	29

This collection is: Class 2 – 19dB SonoFelt<sup>®</sup> – Bio-based

# Hybrid

Collection overview

The Hybrid collection evolves, introducing a spectrum of rich hues inspired by the breathtaking diversity of nature. This new palette breaks free from the subdued tones of greys and beiges, offering designers and architects new creative dimensions to explore.

From the lush greens of Emerald and Jade to the striking blues of Ultramarine and Cerulean, these new colours bring the vitality of the outdoors into high-end interior spaces. Rich, earthy tones like Umber and Ochre ground your designs in natural pigments, while the delicate lightness of Sand and Alabaster adds an air of subtle sophistication.

These additions reflect Hybrid's biophilic philosophy. With colours drawn from the earth's most elemental forces - stone, water, and light - this collection empowers you to create interiors that spark emotion.

Hybrid stands for duality and balance. It's about light versus dark, energy versus calm, nature versus innovation, and even strength versus comfort. The collection combines the durability of hard flooring with the acoustics and underfoot comfort of a soft flooring solution, offering you the best of both worlds.

Step boldly into this next chapter of Hybrid. Transform offices, hospitality interiors, and public spaces with a palette that commands attention.

Hybrid Alabaster

Hybrid Sand

Hybrid Sepia

Hybrid Umber

Hybrid Stellar

Hybrid Magellan

Hybrid Stardust

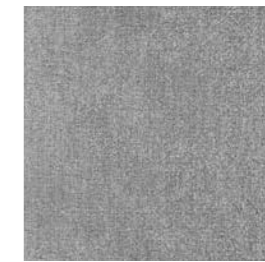

Hybrid Helios

Hybrid Lyra

Hybrid Darkside

Hybrid Meteor

Hybrid Ultramarine

Hybrid Emerald

Hybrid Ochre

Hybrid Cerulean

Hybrid Slate

Hybrid Jade

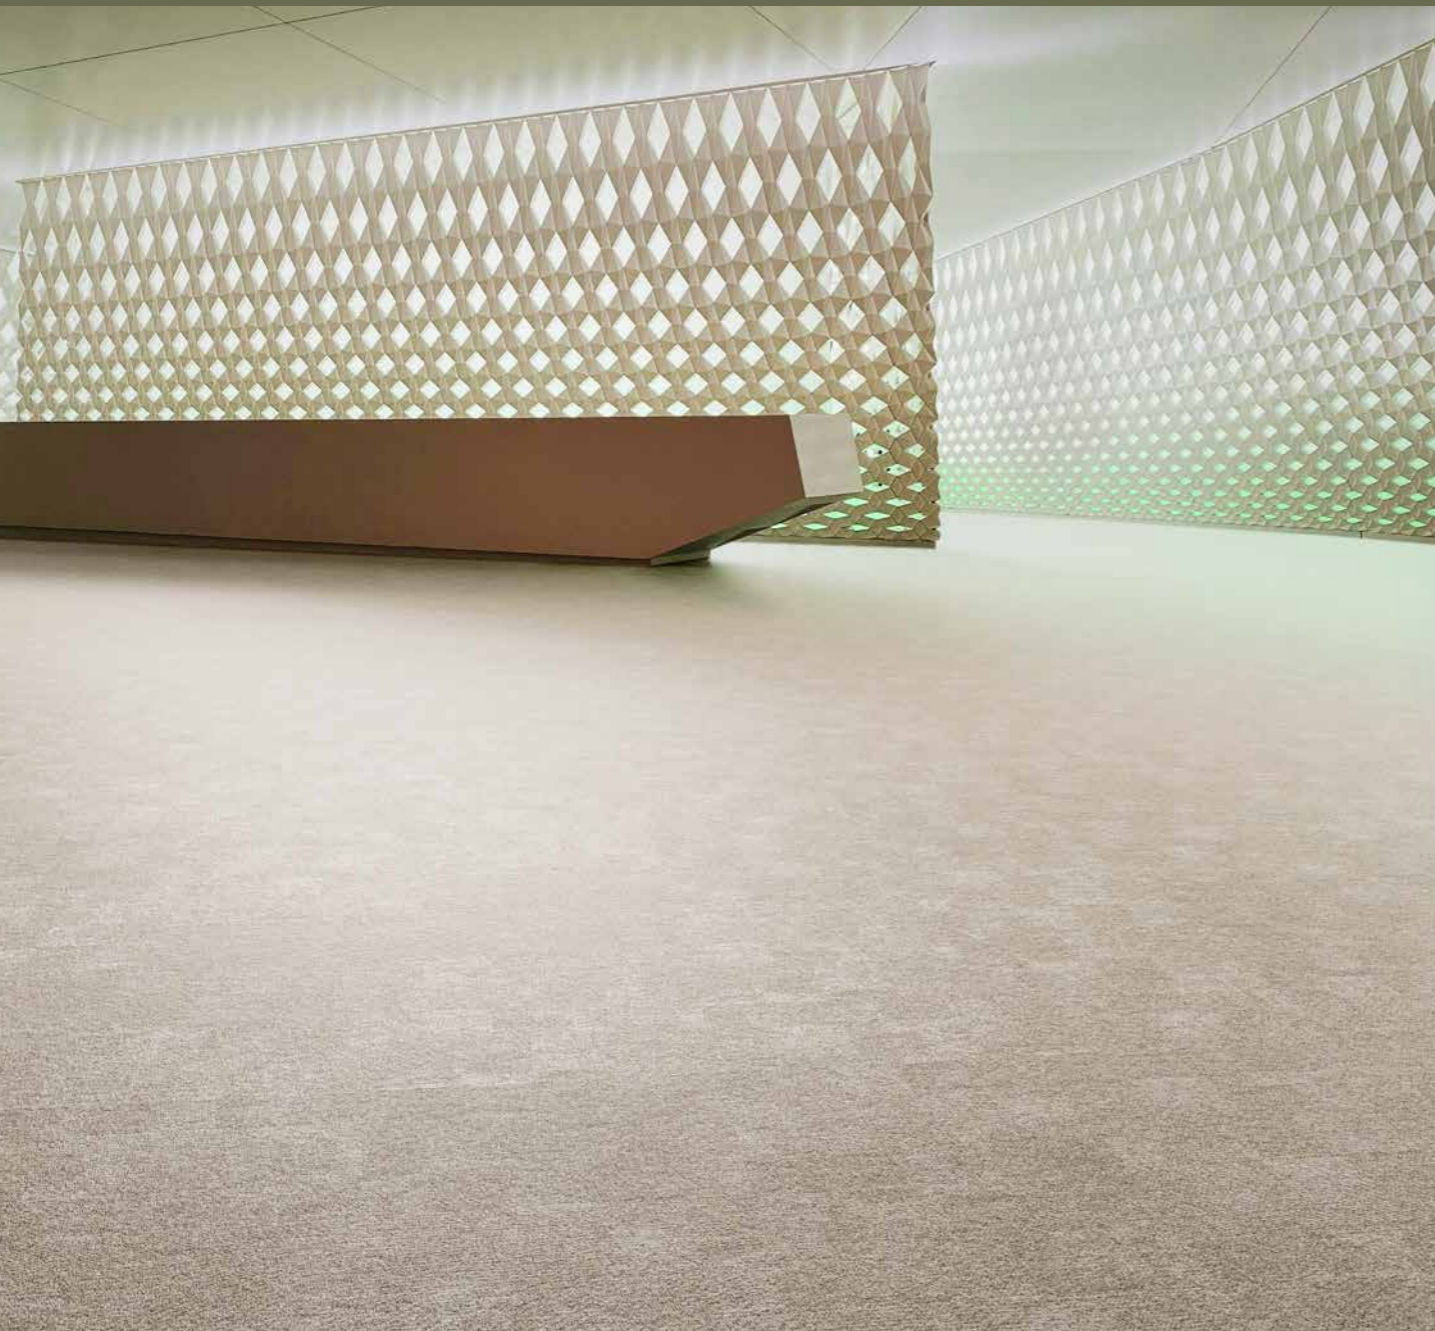

Hybrid Solaris

Hybrid Rosetta

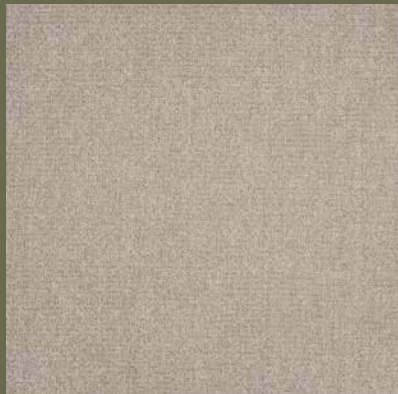

Hybrid Halley

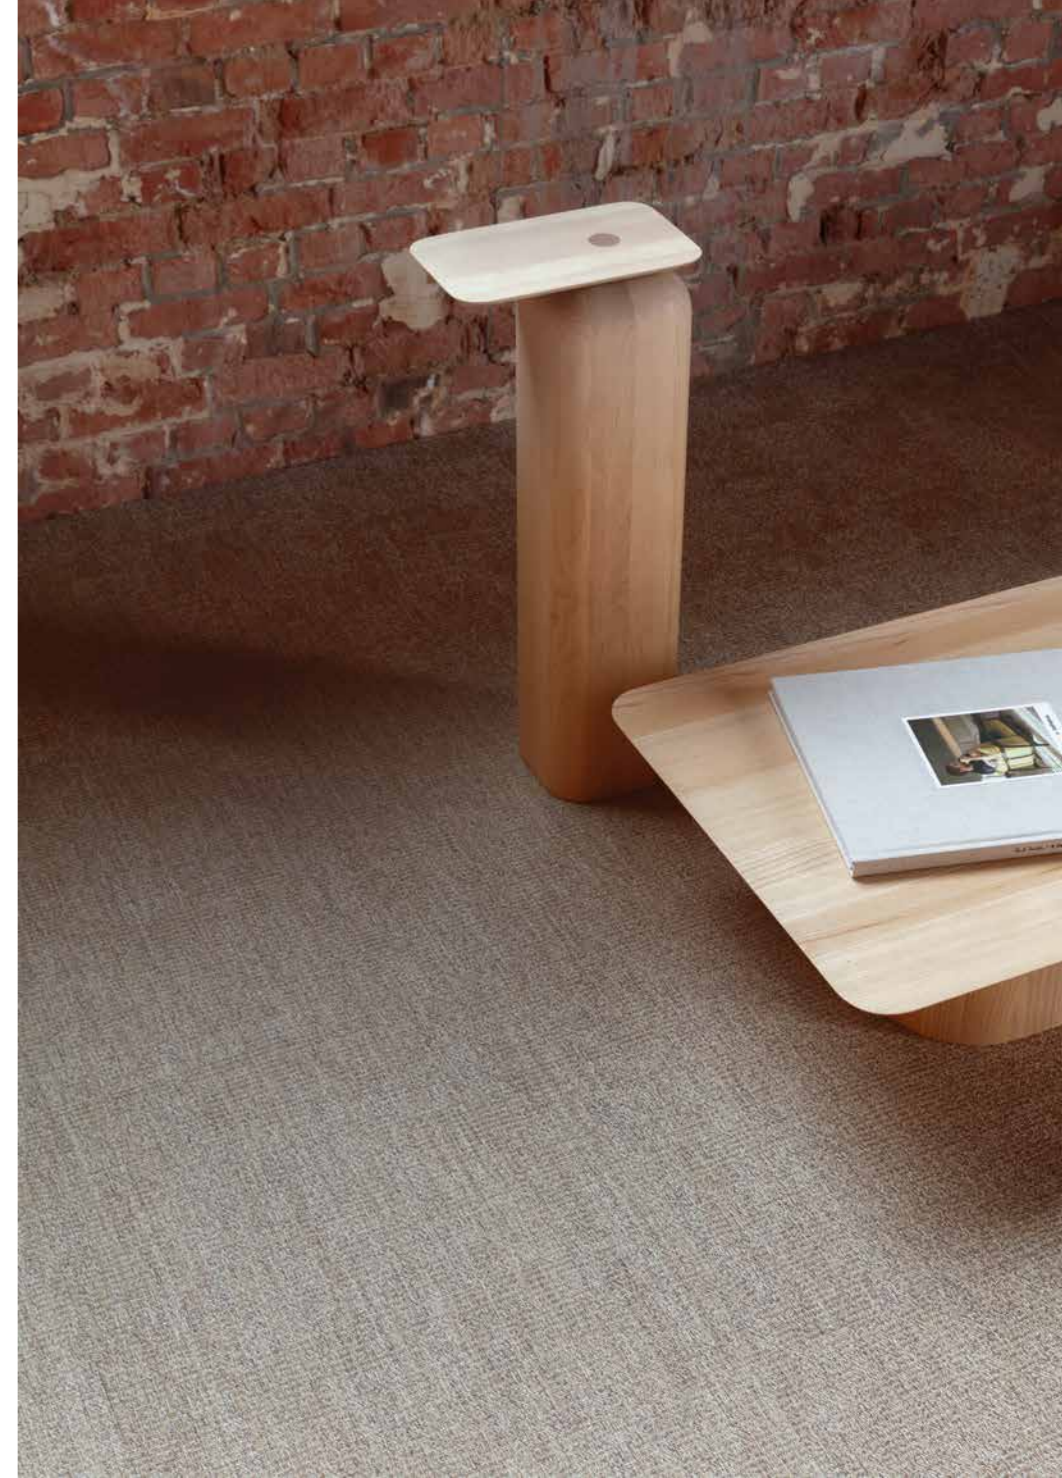

## Alabaster

Hybrid

Alabaster is the epitome of effortless luxury. Inspired by the translucent stone, its pale, luminous tones evoke a soft, ethereal glow.

Alabaster offers a serene yet versatile canvas that complements any interior design, making it a truly timeless choice.

## Sand

Hybrid

Sand draws inspiration from wind-sculpted dunes and sunlit beaches. The delicately textured surface reflects light beautifully, adding depth to your interiors.

Sand's soft, creamy colour palette offers a soothing base for serene spaces. Let its golden undertones carry you away to warmer destinations.

## Sepia

Hybrid

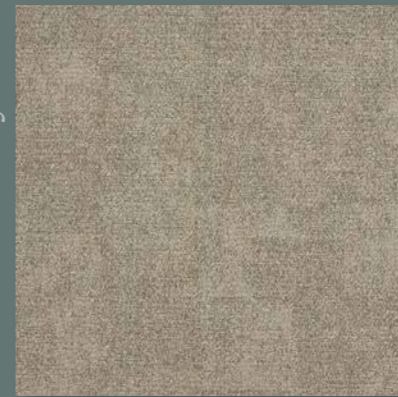

Named after the natural pigment once used in inks and photographs, Sepia offers a nostalgic warmth. With soft, reddish-brown hues and a subtle checkerboard pattern, this floor covering adds a vintage charm to your space.

Enrich your interiors with a sense of history and sophistication.

## Umber

Hybrid

Derived from the Latin word for shadow, this natural pigment was used in paintings to create contrast. A suitable name for a floor covering that weaves together lighter and darker hues.

Umber's earthy brown tones bring a sense of stability and comfort, evoking a connection to the natural world.

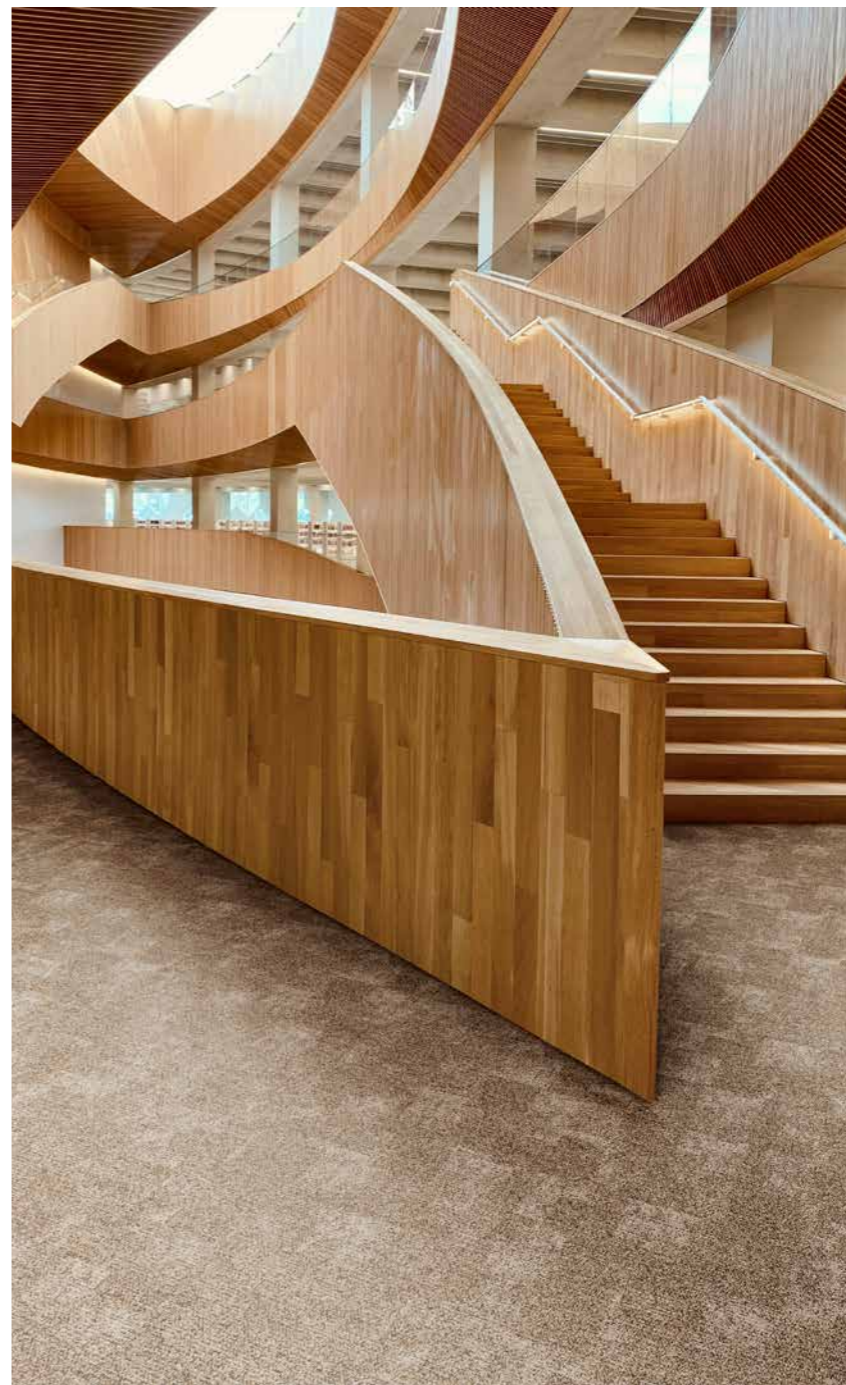

## Stellar

Hybrid

Stellar is, well, simply stellar. Its radiant colour palette lights up your space, while its dynamic interplay of contrasting yarns brings depth and dimension. Stellar stands out like a bright shining star in the night sky.

## Magellan

Hybrid

The deep reddish-brown hues of Magellan call to mind the majestic clay parapets of Portugal and Spain. Named after the world's most prominent explorer, the Magellan flooring inspires one to experiment, push beyond familiar boundaries, and chart new paths.

## Stardust

Hybrid

Stardust features flecks of white against a stark brown background, evoking the feeling of walking amongst the stars. Like celestial bodies painted against a midnight sky, Stardust twinkles brilliantly and gives your space an other-worldly feel.

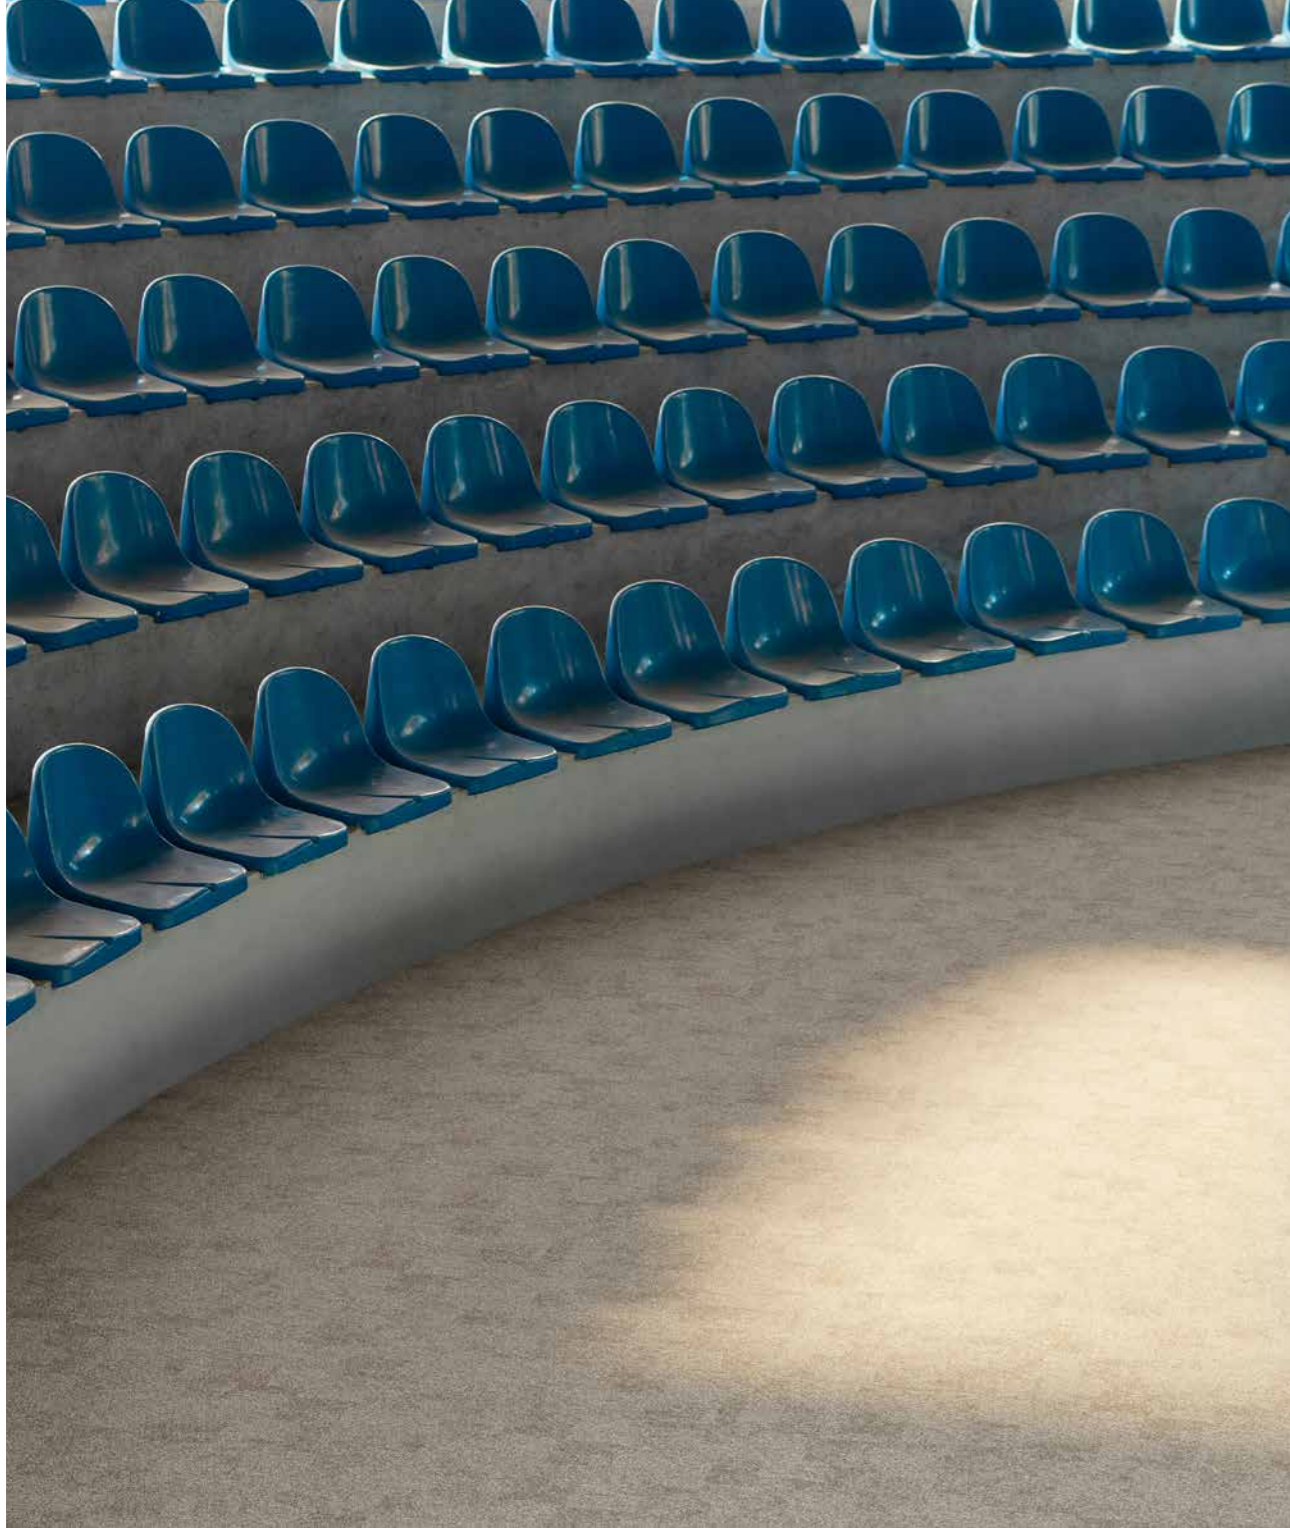

## Helios

Hybrid

Helios is inspired by the Greek god of the sun. True to its name, this floor covering ignites creativity and captures the vibrant spirit of the sun. Its textured pattern and radiant silvery hues turn your space into a cradle of ideas and innovation.

## Lyra

Hybrid

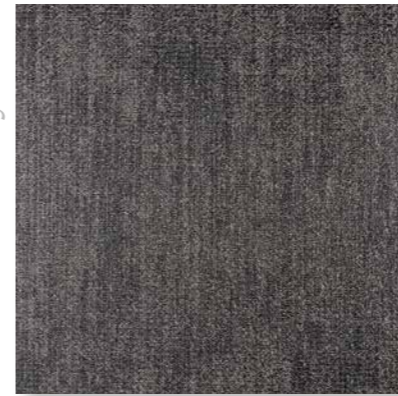

Lyra is named after a small constellation in the northern sky, an ode to Orpheus' lyre. This musical instrument was so enchanting even inanimate objects would be bewitched by it.

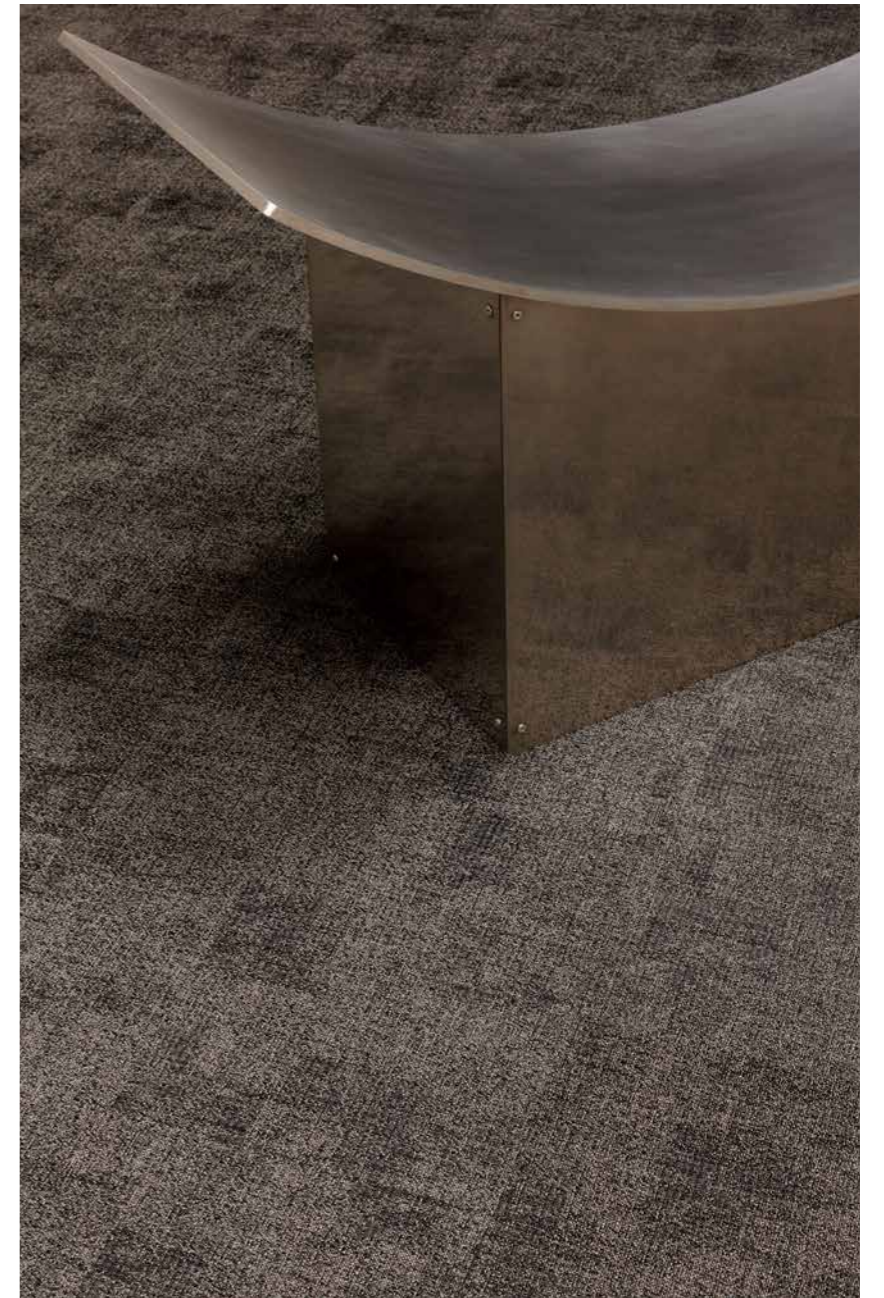

With its alluring combination of light and dark tones, Lyra transforms your room into a spellbinding experience.

## Darkside

Hybrid

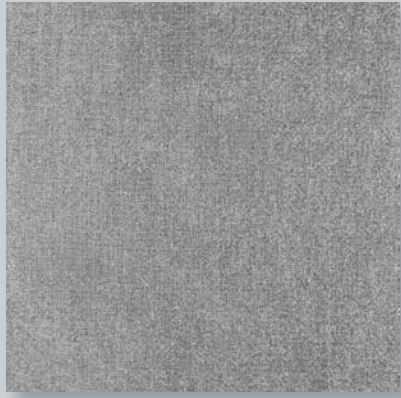

Mysterious and enticing, Darkside uses sombre colours to evoke curiosity and intensity. Its mesmerising mix of deep hues and spectral tones provides a perfect counterbalance to lighter pieces in your space.

Hybrid

# Meteor

Like a rock hurtling through space, Meteor dazzles with a striking, space-grey shade, standing out as the rest of the world passes by. With each step across this simple yet beautiful design, a brilliant path is left behind.

# Ultramarine

Hybrid

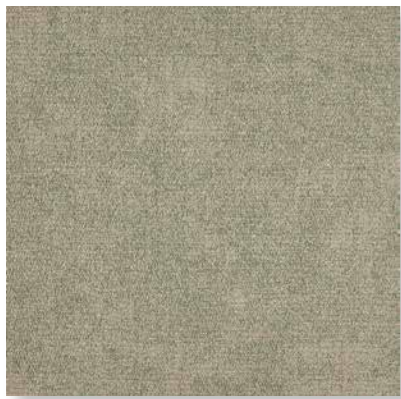

True to its name, Ultramarine channels the mysterious depths of the ocean. This beautiful blue colour evokes calm and clarity, transforming any interior into a relaxing safe haven.

Ultramarine's dynamic pattern mirrors the fluidity of water, adding movement and life to your space.

## Emerald

Hybrid

In Ancient Egyptian mythology, the precious emerald gemstone was a symbol of rebirth. A fitting name for this vibrant floor covering that breathes new life into any interior.

Reminiscent of dew-covered leaves, Emerald's green hues are rooted in biophilic design.

## Ochre

Hybrid

Ochre captures the raw beauty of the earth. This warm, natural pigment makes a room feel inviting and reconnects people with nature.

Used in historical artworks all around the world, Ochre's bold yet grounding presence is perfect for inspiring creativity.

## Cerulean

Hybrid

Cerulean portrays the boundless beauty of the open sky, inviting a sense of freedom and serenity into your space. This invigorating blue brims with energy and offers a refreshing choice for high-end interiors.

Cerulean's rhythmic pattern, blending colourful and dark yarns, dances gracefully across the floor.

## Slate

Hybrid

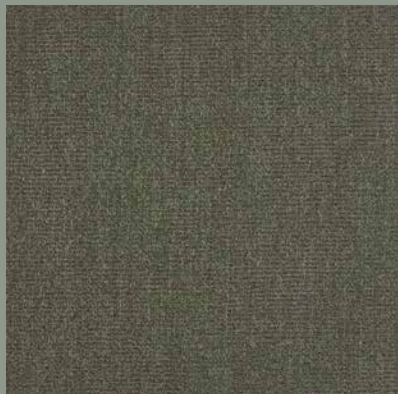

Choose Slate for a sleek, contemporary edge. Its gentle pattern radiates elegance, while its durability echoes the strength of stone. A hybrid floor covering that offers the best of both worlds.

Slate's intricate interplay of deep grey tones provides a timeless foundation for any interior design.

## Jade

Hybrid

Like the gemstone it is named after, Jade exudes harmony and balance, transforming your space into a rejuvenating environment. Its alternation of darker and lighter greens mimics speckled sunlight on a leafy forest floor.

Add a biophilic touch to your interiors with this natural design.

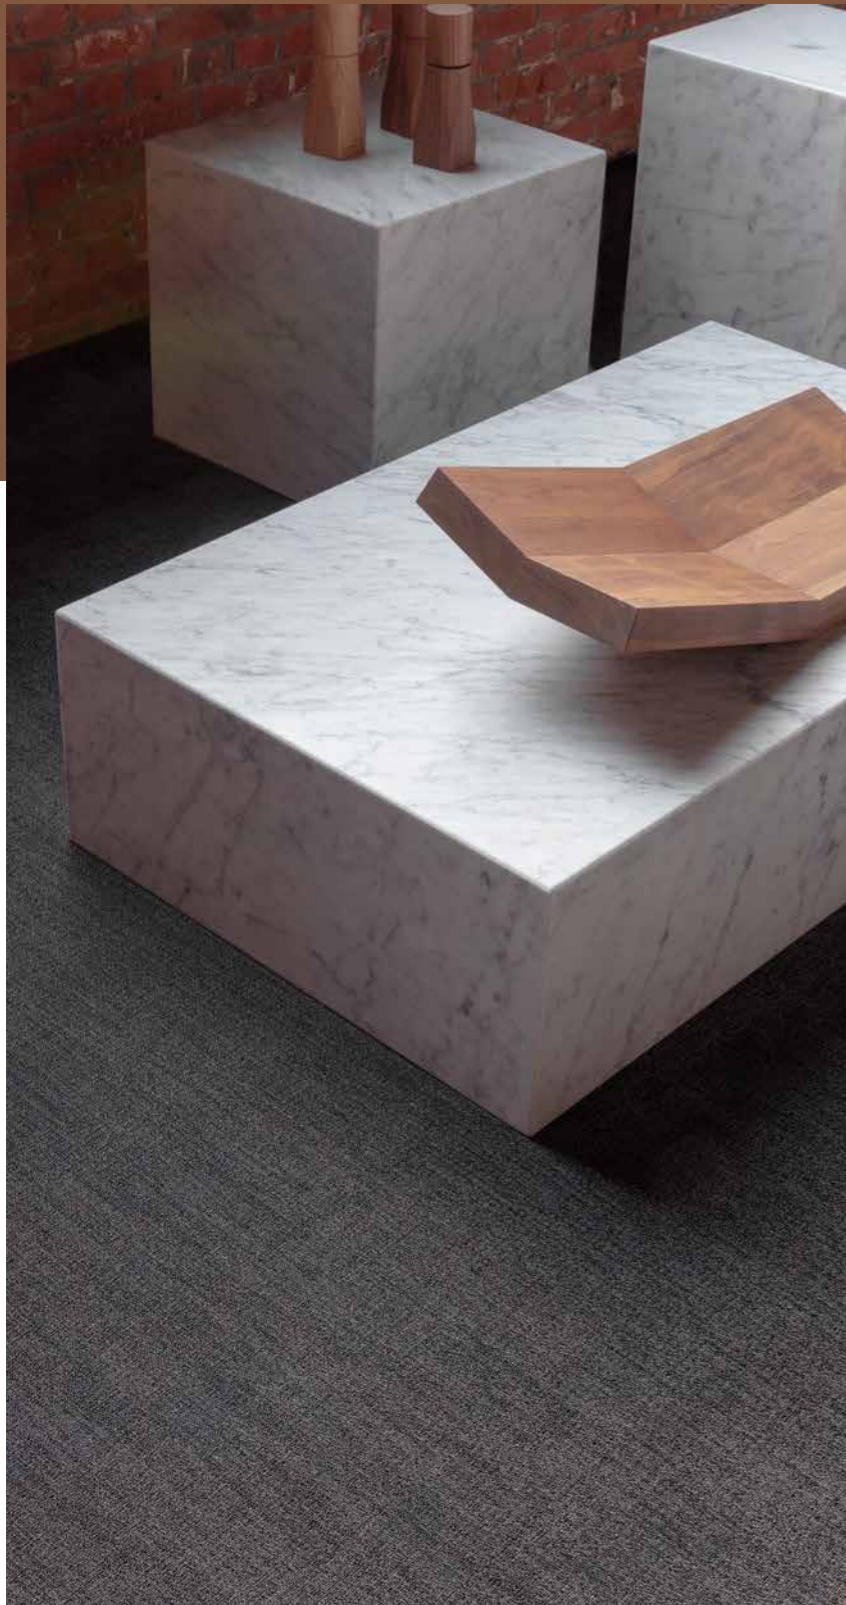

## Solaris

Hybrid

Solaris employs a mix of gold, black and grey hues to mimic the tendrils of light that permeate the dark vacuum of space. More subtle than the blazing surface of the sun, this selection radiates a calm, soothing ambiance that will make your room feel hospitable.

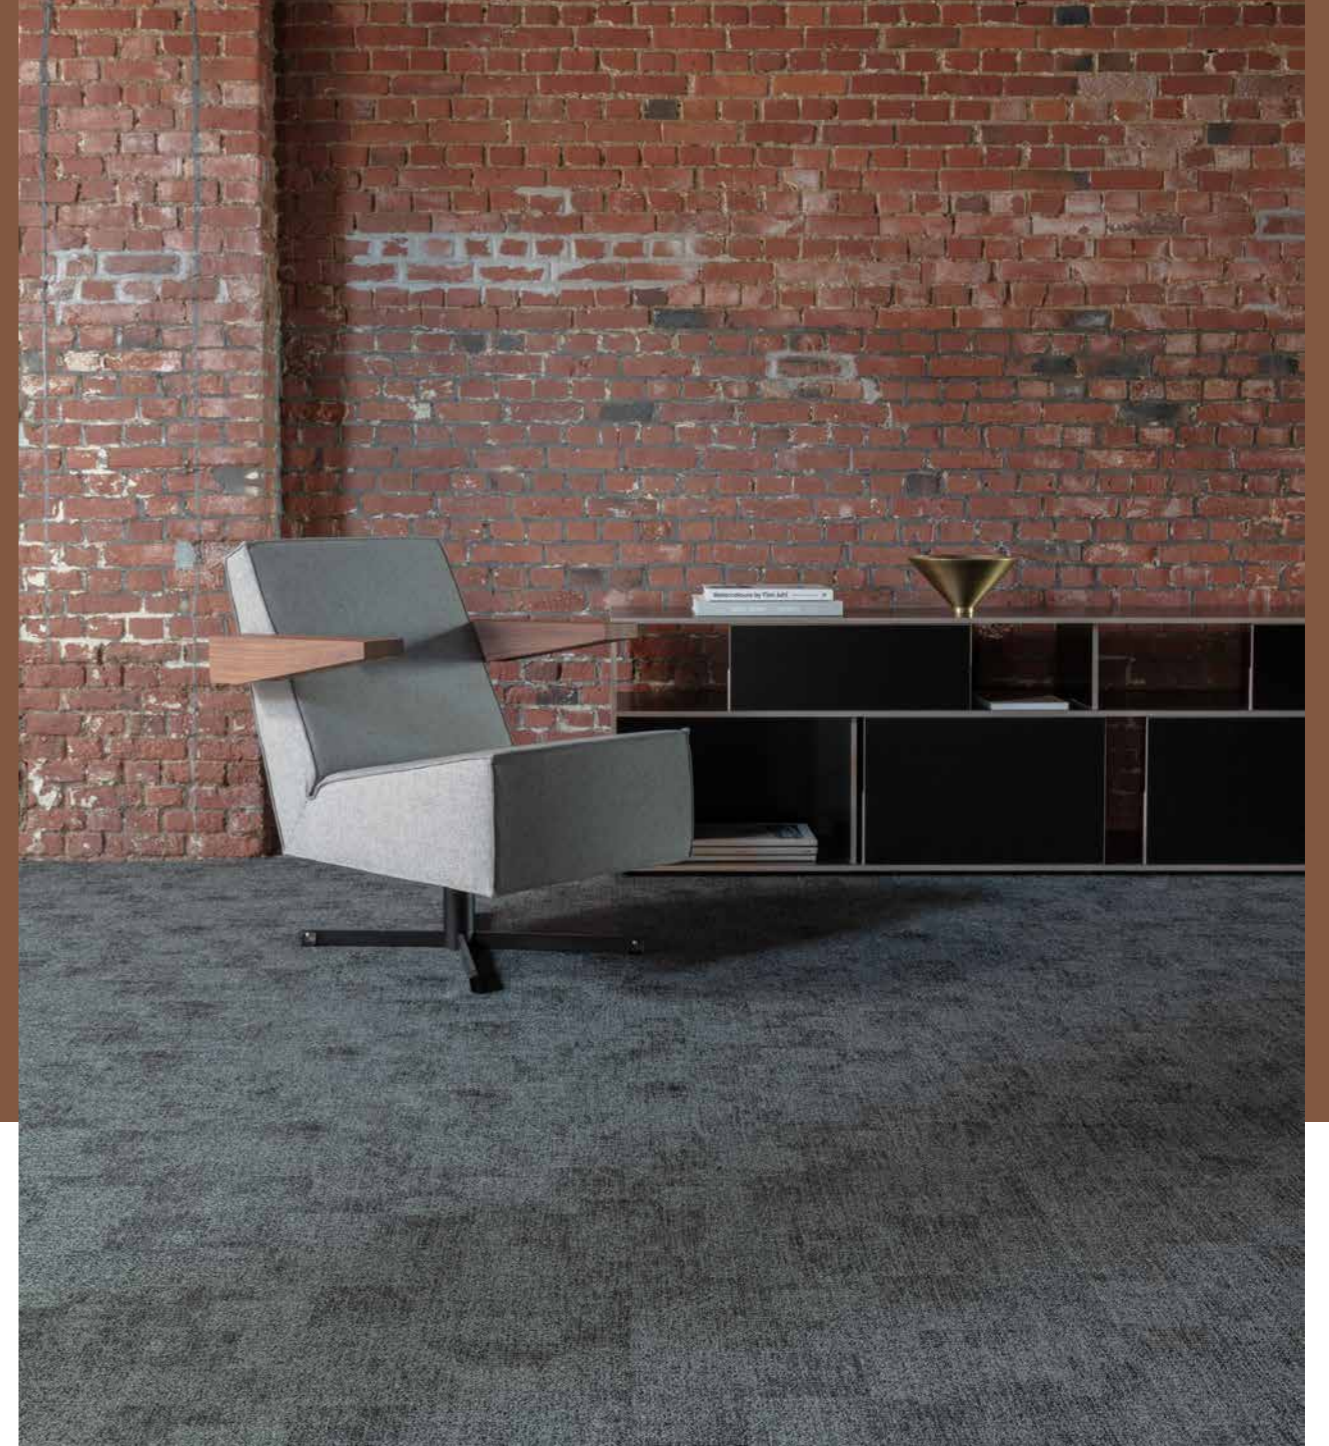

## Rosetta

Hybrid

Rosetta borrows its dark colour scheme from the historic granite stone that was used as a bridge to connect cultures. Like its namesake, Rosetta's design is unifying, and truly a marvel to behold.

## Halley

Hybrid

Like Halley's comet, Halley is reliable and memorable, regardless of how fleeting your guests' interaction with it may be. Like the famous celestial event it is named after, this flooring will not fail to deliver a spectacle.

Its deep grey tones make a statement in any room.

# Hybrid Collection

Bio-Based

## Bio based

- Bio-based top layer
- TUV OK biobased certificate

## Strong and long-lasting

- Extremely robust (Class 33)
- Resists office chairs & heavy traffic
- Long life span

## Hygienic and easy to clean

- Stain resistant & waterproof
- Maintenance with clear water, no chemicals
- Mold-free & anti-allergic properties

## Acoustic sound absorption

- 76 % walking noise reduction
- 19 dB impact sound reduction
- $\alpha_w = 0,15$  acoustic sound absorption

## Sustainable footprint

- Felt backing made of recycled PET
- Third-party verified EPD
- Designed for circularity: 100% recyclable
- Suitable for projects according to BREEAM, LEED & WELL Building Standard®

## High quality & high comfort

- 100% designed & made in Belgium
- Excellent underfoot comfort

Tile  
50 x 50 cm - 19.69" x 19.69"

Roll  
ca. 200 cm - ca. 6'7"
