

2tec2<sup>®</sup>  
high tech flooring

Rugs  
collection

2TEC2 is a 100% Belgian company devoted to designing and producing high-tech woven flooring. In addition to its focus on aesthetics, the company also highly values innovation. Every day, 2TEC2 strives to improve its products in terms of quality, functionality and sustainability.

**"The passion for fibres, the love of colours and the determination to use eco-conscious materials are the foundations of our company's philosophy."**

# Weave to connect

2TEC2 Rugs are made from the same high-quality woven vinyl as our flooring, combining proven durability with timeless aesthetics. Explore a wide range of designs, colours and shapes with impeccably finished borders.

# A whole world of endless possibilities

2TEC2 Rugs offer a simple yet powerful way to transform interiors. With the flexibility to move and reposition them, you can create distinct zones, highlight furniture arrangements, or introduce warmth and character to any setting.

Alhambra Zinc Ellipse 250 x 350 cm / 98.43" x 118.11"

Hybrid Darkside Organic 180 x 240 cm / 70.87" x 94.49"

Whether you want to create a striking focal point or add a subtle layer of texture to your space, you'll find what you're looking for in our extended range. More than a finishing touch, the rugs help unify your interior, connecting space and its furnishings into one cohesive whole. After all, at 2TEC2, we weave to connect.

2TEC2 Rugs hold the same functional properties as our flooring, combining the look and feel of a soft floor with the durability and cleanability of a hard one. They are resistant to heavy commercial use (class 33) and offer excellent acoustics, making them ideal for workspaces, hospitality, healthcare facilities, public spaces and showrooms.

Waterproof, anti-fungal, and easy to maintain, 2TEC2 Rugs perform well in both indoor and outdoor environments.

# High-tech flooring

## Strong and long-lasting

- Extremely robust
- Resists office chairs & heavy traffic

## Hygienic and easy to clean

- Stain resistant & waterproof
- Easy maintenance
- No harmful chemicals needed

## Sustainable footprint

- Felt backing made of recycled PET
- Designed for circularity: fully recyclable
- Responsibly produced

## High quality

- 100% designed & made in Belgium
- Antibacterial, mould-free & anti-allergic properties

## Acoustic sound absorption

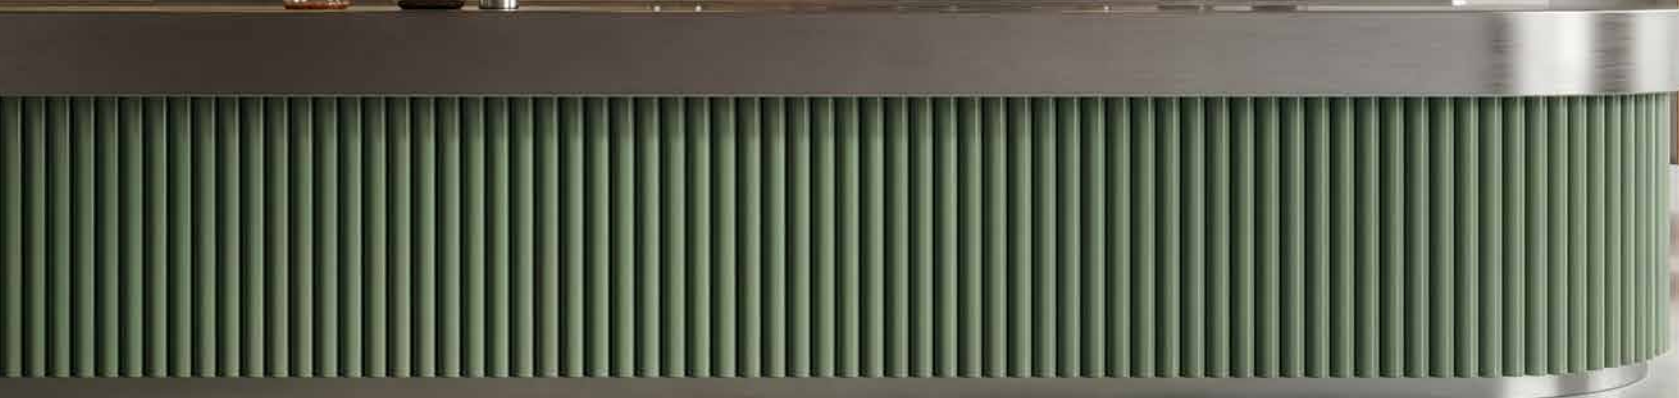

- 70% walking noise reduction
- 19 dB impact sound reduction

## Innovative design

- Unique high-end look & feel
- Available in 6 shapes, 92 product colours

# Important product information

## Product composition 2TEC2

- Woven vinyl top layer
- Precoat layer
- Fibreglass layer
- Base coat layer
- Acoustic felt layer SonoFelt®

## Border

Rugs come with a fixed border colour

- Max. border thickness: 10 mm / 0.39"
- Max. border width: 15 mm / 0.59"

## Label

Rugs come standard with a small leather brand tag.

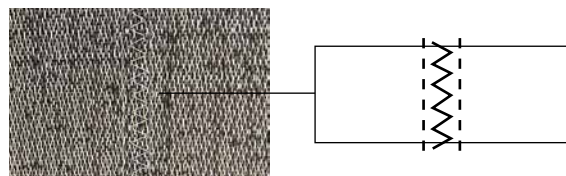

## Configuration of your rug

## Stitching

2TEC2 Rugs with a width of more than 200 cm / 78.74" have a (barely) visible zigzagged stitch:

- The stitched seam is not necessarily centered
- Width stitch: 7 mm / 0.27"
- Composition stitch: UV-resistant polyester

## Shapes

- Stadium (S1) is standard with 30° rounded corners
- Organic (O51), Ellipse (E1) and Barrel (O53) are fixed in shape and proportion

## Indoor & outdoor use

Indoor: suitable for underfloor heating

Outdoor: 2TEC2 advises to bring your rug inside during winter season

## Rug protection

- Protect the 2TEC2 Rug by placing teflon furniture glides underneath your furniture
- Do not place sharp objects on 2TEC2 Rugs
- Heavy furniture can leave a permanent imprint
- Rubber can cause a permanent colour change

## Maintenance

1. Periodic cleaning:

- Use a vacuum cleaner regularly
- Use a soft scrubbing brush, water and a sponge for spot cleaning
- Remove dirty water with a damp cloth or an injection-extraction machine

2. Deep clean:

Use an injection-extraction machine

3. Spot cleaning:

<b>Cold drinks</b> Water	<b>Red fruits</b> Water	<b>Marks from shoes</b> Rub with dry cloth
<b>Hot drinks</b> Hot water	<b>Chewing gum</b> Hot steam or freeze spray	<b>Oily - Greasy* stains</b> Hot soapy water
<b>Food</b> Soapy water	<b>Blood</b> Saline solution or diluted ammonia	*Remove grease as soon as possible to avoid permanent colour change

## Projects

Custom rug sizes, shapes, product colours and finishes are available on demand and have an additional surcharge.

## Contact

Get in touch with our sales & support team for more information, samples or a quotation:  
sales@2tec2.com

# Rugs styling essentials & smart guidance

## 1. Choose the right format of your rug

Make sure your rug is big enough for your space and the furniture.

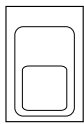

A rug that floats in the room makes the space feel unanchored.

Echo the room's geometry.

Following the shape of your furniture brings immediate harmony and connection in the space.

## 2. Choose the right shape for your rug

### Rectangle / Square / Stadium

The universal choice. Works in any room. Ideal under rectangular dining or meeting tables. Anchors sofas and seating groups.

### Runner

Hallways, desks, bars, alongside beds. Can be finished as a rectangular, stadium or ellipse.

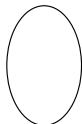

### Circle

Softens angular rooms. Perfect under round tables. Avoid in narrow rooms, as it can accentuate the narrowness.

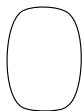

### Organic

The new contemporary choice, following the organic, rounded shapes of tables and sofas. Brings character and 'flow' to the space.

### Ellipse

Fills a room beautifully. Pairs ideally with oval meeting or dining tables. Works also great as a welcoming rug on an open reception area.

### Barrel

A full shape that combines round softness with symmetry. Works also well under oval tables, under seating groups and in open areas.

## 3. Choose the right size for your rug

**In the room** - Leave  $\pm 50$  cm/19,69" of bare floor between the rug edge and the wall. Do not place the rug up to the wall.

**Table/chair rule** - Add min. 60-90 cm/23,60"-35,43" to each side of the table so chairs remain fully on the rug when pulled out.

**Office space** - Adapt the size of your rug so that office chairs on wheels can roll freely back and forth.

**Entry/hallway** - The rug should fit within the door swing, so the door can open fully.

**Sofa leg rule** - Place at least all front legs of the sofa on the rug. All four legs on the rug is the premium option.

**Corridor** - In a corridor or hallway, a runner should never touch the door-frame thresholds. Typical widths: 70-90 cm/27,56"-35,43"

**Hotel bedroom** - Extend at least 50-60 cm/19,69"-23,60" beyond both sides and the foot of the bed. Two-thirds of the bed should rest on the rug.

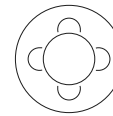

table  $\varnothing$  120 cm/47,20"  
rug  $\varnothing$  250 cm/98,40"

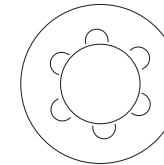

table  $\varnothing$  150 cm/59,10"  
rug  $\varnothing$  300 cm/118,10"

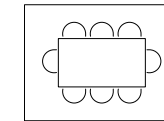

table 100x180 cm/39,40"x 70,90"  
rug 240x320 cm/94,50"x126,00"

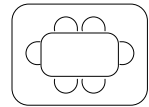

table 90x160 cm/35,40"x63,00"  
rug 210x280 cm/82,70"x110,20"

## 4. Choose the right colour and pattern for your rug

- Light and neutral colours open up a space. They make a room feel larger and airier. It is better to use these shades in low-traffic areas.
- Dark and rich colours ground a space and create warmth and intimacy. Dirt and stains are less visible, waiting for the next cleaning. Place them in high-traffic areas, such as entrances, dining areas and corridors.
- Warm tones add cosiness. They beautifully complement natural materials like wood.
- Solid or plain colours work well when your furniture is already patterned or in calm, minimalistic interiors.
- Organic, floral, or geometric designs are intricate patterns that hide stains and wear very well. Ideal for dining rooms, bars, entrances and corridors.
- Abstract or textured designs are versatile and contemporary, and add texture without visual noise. They pair well with bold furniture.

## 5. Choose a 2TEC2 rug over high pile rug

A 2TEC2 rug is durable, easy to vacuum and clean, ideal for commercial spaces. Chairs slide smoothly. Your best solution for workspaces, hospitality, corridors, education, health facilities, retail, public spaces and showrooms.
